SECTION 1:

SECTION 2:

-RESPONSE TO QUESTIONS received by June 9, 2021

Would you accept an aluminum alternative for the fishing pier. With wood cost and our use of composite decking we make a long lasting solution.

Is aluminum pier and dock sections and pre-fabricated frame sections acceptable? Is composite lumber accepted?

If it is acceptable, I would like to possibly get the plans for the fishing pier and boat docks.

TPWD is not considering or approving alternative products or materials for the fishing pier and/or boat dock at this time. Bidders are to prepare pricing based on what is published the plans and specifications.

Plans and specifications for the pier and dock, as originally published, remain in the Bid and Contract documents; published here: <http://www.txsmartbuy.com/esbddetails/view/118271>
